

**M3 MASK  
LENS  
INSTRUCTIONS**

## DISASSEMBLY PROCEDURE

1. Using the supplied Lens Removal Tool supplied with the Optical Lens Kit, lift the one of the lower corner tabs of the retaining frame (*Fig. 1*).
2. Using the Lens Removal Tool, carefully release the remaining retaining tabs (*Fig. 2*).
3. Repeat steps 1 and 2 on the other lens.
4. Release the locking tab on the backside of the main frame, behind the Hollis logo (*Fig. 3*). Then lift the retainer frame off of the mask.
5. Press the lenses out of the mask skirting.

## REASSEMBLY PROCEDURE

1. Align and press the lenses into the mask skirting, as shown (Fig. 4). Ensure they seat smoothly.

**! Note:** When looking at the front of the mask, the printing on the lenses should read left to right across the top.

2. Align the locking tab, and install the retaining frame at a 45° angle, as shown (Fig. 5).
3. Secure the center section of the retaining frame by down and upwards, as shown (Fig. 6).

Fig. 6

4. Following along the edge of one lens, press the retaining frame into place (*Fig. 7*). Ensure all tabs are secured into the main frame.

5. Repeat step 4 for the other lens.

6. Inspect the assembly to ensure all parts are fitted securely and smoothly (*Fig. 8*).
